Lesson 29

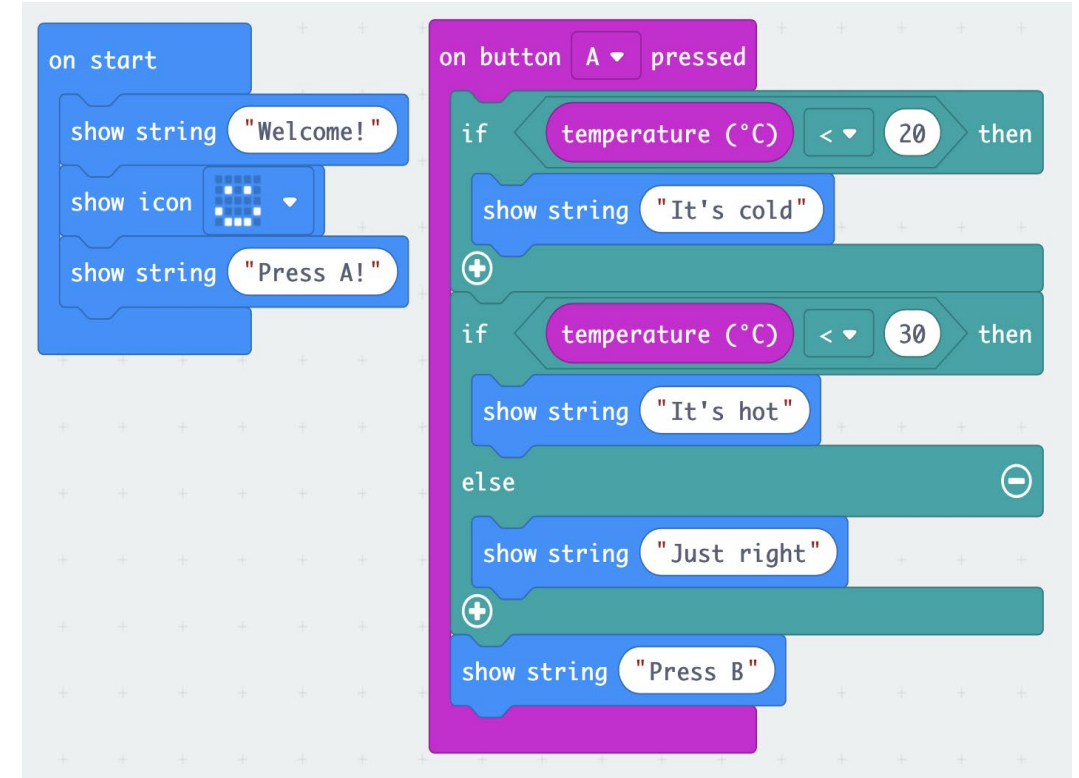

Testing and Developing

arm School Program

Reading and Understanding Code

- As you have developed your skills throughout the code you may now be able to read and understand code
- Using the code on the **Test Plan** worksheet can you explain in your own words what it does?

Test Plan

- When people produce code it is extremely important that it is checked thoroughly for any errors – we can use a test plan to do this
- The test plan identifies what **outputs** should be generated for a range of **inputs** using **selection**
- Carry out the test plan on the 'Test Plan' worksheet

Code Challenges

- Throughout this course you have developed some excellent coding skills
- How many of the coding challenges can you complete?
- Good luck!
